

Joshua Q. Cabuang

Junior Web Developer

0936-149-8100 | joshuacabuang@gmail.com | [LinkedIn](#) | [GitHub](#) | San Carlos City, Pangasinan

Skills

Backend: PHP, Laravel, MySQL

Frontend: React, Tailwind CSS, Livewire, Alpine.js

Languages: JavaScript, TypeScript, SQL

Tools: Git, GitHub, Postman, VS Code, Laravel Herd, Antigravity, TablePlus

Work experience

On-the-Job trainee [Link](#)

January - April 2026

Local Government Unit

- Developed 3 responsive UI prototypes using Tailwind CSS, HTML, JavaScript, Git, and AI-assisted workflows.
- Engineered a high-fidelity, responsive web prototype using Tailwind CSS, implementing a clean user interface across 3 core pages to streamline local public navigation.
- Maintained strict UI consistency across all 3 page layouts (Home, Services, Tourism), leveraging AI-assisted development to accelerate frontend delivery and achieve seamless, mobile-first responsiveness for the city portal.

Projects

Intelligent Driving School Management | Tailwind, AlpineJS, Livewire, Laravel, MySQL [Link](#) May 2026

- Built an automated scheduling system that matches students with instructors in real time, handling complex constraints like instructor availability.
- Developed a secure document upload portal that streamlined enrollment verification and reduced manual document submission.
- Centralized the entire student experience into a unified dashboard, covering everything from self-service registration to digital scheduling and progress tracking.

Education

Binalatongan Community College
